Primary Examiner, Art Unit 2619

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on February 8, 2008 has been entered.

2. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Majid S. Albassam on April 18, 2008.

The application has been amended as follows:

In the claims:

Claim 23, line 8, "the second data rate" has been changed to -- the second data rate of the same transmitting channel --.

Claim 30, line 11, "the second data rate" has been changed to -- the second data rate of the same transmitting channel --.

Claim 37, line 3, "a signal" has been changed to -- a control signal --; line 6, "a second data rate" has been changed to -- a second data rate of the same channel --.

Claim 38, lines 8-9, "the second data rate" has been changed to -- the second data rate of the same transmitting channel --.

Claim 42, line 10, "the second data rate" has been changed to -- the second data rate of the same transmitting channel --.

Claim 43, lines 8-9, "the second data rate" has been changed to -- the second data rate of the same transmitting channel --.

3. The following is an examiner's statement of reasons for allowance:

All claims are allowable over the prior art of record because all prior arts fail to teach or suggest a method or an apparatus or a network for communicating radiotelephones utilizing a network controller (gatekeeper) by operating communication channels over a carrier in a network at a first rate (full rate) or second data rate (half rate) such that the carrier transmits data through a single communication channel operating at the first data rate or two communication channels operating at the second data rate; and **changing a data rate of a transmitting channel from the first data rate to the second data rate of the same transmitting channel in response to an initiation of establishing a call with a second network**.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
